## TASTING NOTES AND NUTRITIONAL INFORMATION

### **FUN** RAW STEAK TARTARE

Raw diets are free from additives, chemicals and artificial flavouring and provide plenty of protein, vitamins and minerals to your dog. Grain free diets help with digestion and avoid gluten allergies and intolerances. Meat & Bone Meal can be used to ensure dogs receive enough calcium.

### **CREATIVE** SALMON SASHIMI

Salmon contains Omega-3 to promote strong bones, prevent hair loss, boost metabolism and stimulate growth. Dogs also find it delicious! Bananas are packed with potassium, vitamin B and C as well as fibre.

### **HEALTH & WELLNESS** CLEAN EATING CHICKEN PROTEIN IMMUNE BOOSTER

Fresh chicken will provide plenty of tasty protein for your pet, while vitamins C found in carrots, and vitamins B1, B2 and B6 in apples will ensure plenty of delicious nutrients.
